RE: Wallsburg CBDG Spring Transmission Line Improvements

Dear Doug,

I have had a chance to complete a review of the plans and Stream Alteration Permit for the Wallsburg CBDG Spring Transmission Line Improvement Project prepared by Horrocks Engineers. A Stream Alteration Permit has already been issued by the Utah State Engineer. Within the permit it states that "Vegetation should not be destroyed, but if some disturbance is necessary, then revegetation with native species will be required, especially in the case of wood shrubs". Also, the permit references that a restoration plan for any areas temporarily disturbed during work should have been prepared for the permit. Could we review the restoration plan and seed mixture?

If you have any questions, please feel free to contact me at 801-580-9692.

Sincerely,

Alane E. Boyd, P.E.
Principal
